Dear Third Grade Families,

We recently purchased a new typing program for the school thanks to a grant from the PTA. The students will be able to use this program at home by completing a few simple steps.

Type to Learn 4 is Internet-based. However, the application needs to be installed on your home computer. The students have been assigned usernames (first initial, full last name) and a password (their student id number). There is a one-time activation number that will need to be entered. The activation number is 135775.

This installation is voluntary. The students will be using the program at school on the laptops, but continued practice at home will increase typing proficiency.

Thank you for your continued support of our programs here at school!

The Third Grade Teachers

This link will take you to the download site for both Windows and Apple computers. You will probably need to cut and paste the URL in your browser address box.
